## Education

- 2017–present Lomonosov Moscow State University, Russia.  
Faculty of Mechanics and Mathematics, specialist degree  
Specializations: Mathematics  
Department: Probability theory

- Summer'21 Coursera's course "Supervised Learning" by MIPT and Yandex  
2013–2017 Lyceum 1580 (of Bauman Moscow State Technical University)

## Experience

- April'21 28th International Scientific Conference for undergraduate and graduate Students and young scientists "Lomonosov"  
September'19– SQL Data Analyst in Revo Technology  
December'19  
July'19– Trainee SQL Data Analyst in Revo Technology  
August'19  
2017–2019 Math tutor

## Skills

- Programming Languages Python: TensorFlow, PyTorch, Pandas, Sklearn; C, C++, SQL, R, Swift  
Tools Tableau, LaTex, Wolfram Mathematica  
Languages English: fluent, German: basic  
Operating Systems macOS, Linux, Windows

## Projects

- September'19– Course work "Applications of Gibbs sampling to a problem on the reconstruction of a multidimensional distributions". Guide: Full Professor, Dr. Elena Yarovaya  
present

- Summer'21 Generation of clothing images with autoencoder and GAN. Guide: PhD in Physical and Mathematical Sciences Anton Shokurov

## Hobbies

- Snowboarding, singing, hot yoga
